Copilot Reversible Seat	D136-1009	11.0	1700 (1450)	18700 (15950)
Copilot Reversible Seat	105-81511	11.0	1700 (1450)	18700 (15950)
NOTE Above values in parentheses apply to Model S Variants.				

7. SYSTEM DESCRIPTION

The copilot reversible seat converts the copilot standard seat into a reversible unit to additionally provide seating for a doctor or medical attendant (allowing for inflight medical treatment of patients) or a rescue hoist operator on helicopters fitted for such missions.

The copilot standard seat is modified by fitting an adjustable headrest. The seat rails are modified to accept the seat for both forward- and aft-facing installations and the seat stop bolts are replaced by quick-release pin pins. The floor forward of the seat is fitted with additional lap belt fittings for the aft-facing installation.
