

6. MASS AND BALANCE

6.1 EQUIPMENT LIST ENTRIES

System/Equipment Designation	Part No.	Mass (kg)	Arm (mm)	Massmoment (kgmm)
Dual Controls	105-44001			
– Cyclic Stick-LH	105-40111	3.5	1400 (1150)	4900 (4025)
– Collective Lever-LH	105-41229	0.7	1900 (1650)	1330 (1160)
Collective Lever-LH	105-41222	0.9	1900 (1650)	1710 (1490)
Collective Lever-LH	105-41238	0.8	1900 (1650)	1520 (1320)
Collective Lever-LH	105-41232	1.2	1900 (1650)	2280 (1980)
Collective Lever-LH	105-41237	1.3	1900 (1650)	2470 (2150)
– Directional Pedals-LH	105-40211	2.4	1100 (850)	2640 (2040)
– Connecting Components		2.3	1400 (1400)	3220 (3220)
NOTE Above values in parentheses apply to Model S Variants.				

7. SYSTEM DESCRIPTION

Dual flight controls, comprising directional control pedals, cyclic stick and collective lever, are provided for dual pilot operation.

The RH collective lever N₂ TRIM switch and cyclic stick TRIM switch have operational priority over the same switches on the LH controls. Switches on the LH controls that are nonfunctional should be placarded INACTIVE.

When the cyclic and collective controls are removed the remaining exposed control ends shall be protected by installation of covers available with Service Bulletin 80-55.
